- Therapies
- Rehabilitation

PROGRAMS & SERVICES

- 1] Short Term Psychosocial Rehabilitation and Care
- 2] Long Term Psychosocial Rehabilitation and Care
- 3] Supported Employment
- 4] Supported Living
- 5] Geriatric/ Old Age Mental and Physical Health Care

Step 1: Arrival

1. Registration: Complete all clinical and financial forms.
2. Admission: Check in with your assigned nurse at the Inpatient Department (IPD).
3. Orientation: Learn about the hospital rules and regulations.

Step 2: Getting Settled

1. Medication: Begin taking medications as prescribed by your doctor.
2. Evaluation: Start psychometric testing to assess your mental state.
3. Initial Consultations: Meet with your psychiatrist, psychologist, and art therapist.

Step 3: The Road to Recovery

1. Doctor's Visits: See your psychiatrist daily for ongoing monitoring.
2. Therapy: Participate in daily therapy sessions with a clinical psychologist.
3. Creative Expression: Engage in daily art therapy sessions.
4. Holistic Care: Attend daily yoga and physiotherapy sessions for physical well-being.
5. Engagement Activities: Enjoy daily recreational activities.
6. Nutrition: Savor gourmet meals designed for optimal health.
7. Dietary Guidance: Consult with a dietician to establish a personalised healthy eating plan.
8. Family Support: Participate in weekly family therapy sessions and receive regular updates.

Step 4: Going Home

1. Discharge Planning: Collaborate with the care team to plan your smooth transition back home (2-3 days).
2. Final Assessment: Undergo discharge psychometric testing to measure your progress.
3. Continuing Support: Schedule family counselling sessions for ongoing support after discharge.
4. Preparation for Discharge: Complete all pre-discharge procedures.
